## MINI SPATS TEMPLATE VUR 100190

part 1 of 4

Use this target to assemble template only

Use this ruler as a guide to assembling the template sections together & check to see if the template has printed the right size.

If printed the wrong size, ensure that Acrobat is not shrinking/enlarging to fit paper size.

If still printing the wrong size then use this calculation to work out the enlargement size needed to print the template correctly.

$$\text{Percentage to print} = \frac{\text{distance it should be}}{\text{distance that it has printed}}$$
